Committee Reports

CMA Annual Membership Meeting

Coolfont Mountainside Association

Coolfont Mountainside Association
2025 Annual Membership Meeting

Location: Coolfont Resort and via ZOOM

Date: Saturday, September 20, 2025

Time: 10:00 am

AGENDA

I. Call to Order, Proof of Quorum

II. Certification of Meeting Notice

III. Election/Voting Procedures and Results – Georgia Lowman, Chair, Nominating Committee Steve Katz, Board Liaison

1. Appointment of Election Clerks
2. Nominations from the Floor
3. New Candidate Statements
4. Information on voting process(es)

IV. State of the Mountainside – Steve Katz, President

V. Directors' Comments

VI. Financial Reports – Dawne Holz, Treasurer

VII. Committee Reports

1. Site Manager – Stephanie Rebant
2. Water & Sewer Report – Cathy Levey, Operations Manager
3. Communications – Dawne Holz, Chair
4. DACC – Gary Farmer, Chair
5. Firewise – Henry Lynn, Chair
6. Recreation/Trails – Chris Peabody, Chair
7. Recreation/Pool – Dave Creason, Pool Manager/CPO
8. Neighborhood Watch – Gary Farmer, Chair
9. Social – Pam Sanders, Chair
10. Welcome – Rosemary Bigelow, Chair

VIII. Task Force Reports

1. Barn – Gary Farmer
2. Bylaws Amend – Sharon Geno
3. Sports Courts – Chris Peabody

IX. New Business

Additional (Member Requested) Items for Membership Vote:

1. Proposed CMA Bylaws Amendment: Restriction of Board Membership
2. Proposed CMA Bylaws Amendment: Annual and Special Meeting Member Voting
3. Proposed CMA Road Maintenance Policy Resolution
4. Barn Question for Owners

X. Close of Elections For Directors, Minutes, and Budget 1 pm

XI. Owner's Comments

XII. Election and Voting Results

XIII. Adjourn

COOLFONT MOUNTAINSIDE ASSOCIATION

2024 ANNUAL MEETING MINUTES

Saturday, September 21, 2024

10:00AM

In person and Zoom

Board Members Present

Steve Katz	President
Norm Rosenberg	Vice President
Dawne Holz	Treasurer
Valerie Creason	Secretary
Anna Connolly	Director
Jack Wennersten	Director
Dave Creaason	Director

Board Members Absent

None

Homeowners Present

Bill Ragen	Shereen Arent	Chip Yingling
Chris Peabody	Cathy Levey	Brian Wolfman
Timothy Flanagan	Rosemary Bigelow	Georgia Lowman
Richard Adjou	Tom Holz	Eric Lienhard
Francy Luscher	Iris Melton	Katie Mallony
Evelyn Israel	Heidi Splane	Pam Sanders
Marie ???	Cindy Kelleher	Barbara Meeker
Barbara Fairfield	Leila Keese	Joe Auslander
Susan Betts	Mike Carleton	Rusty McCrady
Ian Joseph	Nancy & Paul Lidard	Stephanie Rebant
Steven Markus	Siri Sophar	Gary Farmer

I. **ROLL CALL & PROOF OF QUORUM**

Mr. Katz called the meeting to order at 10:02am and Ms. Creason verified a quorum was present

II. **CERTIFICATION OF MEETING NOTICE**

Mr. Katz asked for certification of meeting notice and Ms. Creason verified

III. ELECTION/VOTING PROCEDURES AND RESULTS – Georgia Lowman, Chair, Nominating Committee and Steve Katz, Board Liaison

The initial call for board candidates was emailed on 07/10/2024. On 07/25/2024 a reminder email was sent. The date for the end of submissions was 07/29/2025. Three candidates submitted videos for "Meet the Candidates," the videos were posted on the CMA website on 08/21/2025, and the community was notified that the videos could be viewed on the website. As for the last 4 years, voting was by means of Election Buddy. Voting commenced on 09/06/2024 at 9:00A and ceased on 09/20/2024 at 12:00P. Three director positions were open.

Mr. Katz opened the floor for nominations for the open director positions. Heidi Splane nominated Eric Lienhard. He accepted the nomination. Eric Lienhard nominated Travis Martz. He accepted the nomination. Dawne Holz nominated Gina Baum. She was not present to accept the nomination. Travis Martz nominated Daniel Martz. He was not present to accept. Mr. Katz closed the nominations from the floor. The list of candidates was: Valerie Creason, Jack Wennersten, Iris Melton, Eric Lienhard, Travis Martz, Daniel Martz, and Gina Baum.

Members were instructed to complete their ballots and take them out to the nominations committee. Shereen Arent volunteered as Clerk to assist the Nominations Committee in tabulating the votes.

The results of the election were read by Mr. Katz in between the Committee and Task Force reports but they are placed here for purposes of continuity.

ELECTION RESULTS

Mr. Katz announced the election results;

Proposed budget for 2025:	83 approve	10 not approve	11 abstain
Annual Meeting minutes (2023):	82 approve	1 not approve	21 abstain
Uninstructed proxy:	41 approve	46 not approve	16 abstain

Directors: (3 with greatest number of votes)

Valerie Creason Iris Melton Jack Wennersten

Ms. Holz asked if the other nominees may know their vote tallies. Mr. Katz will respond to emails or inquiries. Mr. Lienhard asked that his vote tallies be announced publicly. Mr. Lienhard received 36 votes.

Mr. Katz stated that 145 Election Buddy emails were sent out from the system, then 3 reminders. 101 responses out of the 145 sent out. There were 3 votes submitted by attendees and 1 was mailed but not returned.

IV. State of the Mountainside – Steve Katz, President

Refer to the document on the web.

Mr. Katz thanked the volunteers: Cindy Kelleher for assisting in finding funding for the lagoon liner; Cathay Levey for all her efforts on the behalf of the community for water/sewer; Dave Creason for acting as CPO and managing the pool; Jack Wennersten as the social chairman for the events he planned and executed; the Board of directors; all volunteers.

V. Board comments

Ms. Holz asked Mr. Katz how many members voted (for proof of quorum). He noted that 101 members out of 145 members voted online and 1 member was sent a ballot by mail but did not respond.

VI. Financial Reports – Dawne Holz, Treasurer

Ms. Holz (Treasurer) reported that CMA is solvent and operating within budget. She thanked the Finance Committee (volunteers): added to the committee are Cindy Kelleher, Shelley Drasal, and Paul Soni. Annual report: (recap) CMA ended 2023 with a net income of $1929.49 which was applied to members' equity (1% over-budget). Financial reports are for 2024: through 67% of the year, expenses are running slightly high at 70% because the pool expenses and grounds maintenance are front-loaded. CMA collected 101% of budgeted income in 2023 and there are no owner delinquencies. Overruns and expenses are pool operation because of leak, and payroll.

Payment processing fees: 80-85% of owners pay by email. Only 1-2% of accounts are processed by paper check. We pay 3% to process the fees and the Board will consider requiring payment by ACH. An owner asked if the members who pay by CC can be charged the 3% fee, but our software (QuickBooks) does not allow for this option.

CMA ceased transferring funds from CMA to CMAWS, *per the advice of legal counsel*, at the end of June when PSC issued the new interim rate increase (which should provide funding to cover the amount that CMA was transferring to CMAWS). CMA reserves exceed $280K which is what the reserve study required. We have spent about $10K on various projects. We have $23K earmarked for roads, ditches, and culvert restoration.

CMAWS is also solvent and finished 2023 with a net income of $9000.(applied to members' equity and will be used in 2024 for infrastructure repairs.For 2024, we are 67% through the year and our budget shows a net loss of $16K but we just invoiced the current quarter's water bills. We're on track for income at about 50% after the first two billing periods. We processed 16 leak adjustments in 2023, and have already processed 9 in 2024. No delinquent accounts in CMAWS. Expenditures are on track at 69%.

For repair and replacement for CMAWS, we have spent $61K of members' equity and reserve funds.

Finance/water sewer committee has been working to do the tariff review at PSC for a year. Filed in May for an emergency rate increase, and PSC provided an interim rate increase in June. PSC is doing a full rate review and has sent a 70 page recommendation which is posted on the website. Our customers wanted to

lower the minimum billing amount (4500 gals.) but PSC was not responsive. We filed a request for an extension through 10/17/2024 to respond to the recommendation. An owner asks about the PSC's response on"block rate" pricing. The PSC was not receptive to the request. An owner asked if the owners of CMAWS could comment on the PSC response and Ms. Holz encouraged owners to weigh in.

VII. Committee Reports

a. **Site Manager** – Stephanie Rebant
Review of services provided: facilities management (office), grounds maintenance, roads and work with committees on water/sewer, etc. Gravel price has increased to $700-900 a load. Road maintenance - contractor grades and cleans out ditches, but grading removes gravel from the roads. She is trying to work within the budget. Estimate from excavating company to clear ditches past K section to cul-du-sac on Bobcat Dr. but beyond our budget. Had a tree-trimmer cut back all sapling and the small tractor can be used to clear the ditches. Did same on Salmon Way. Removed some trees from around pool to reduce debris in pool, and will plan to remove trees around the sports courts.
We have significantly increased the budget for forest maintenance, and CMA is trying to remove dead trees before their removal becomes an emergency. If an owner has a concern: let Ms. Rebant know and she will evaluate whether it is on CMA or an owner's property.
An owner asked if a local contractor could move our water/sewer out of the analog age into the digital age. Discussion.

b. **Water & Sewer Report** – Cathy Levey, Operations Manager
Overview for 2024: Tasks related to monitoring and maintaining our system: daily system checks, monthly section meter checks for potential leaks, monthly pressure tests, exorcise the valves every 6 months, complaining a list of valves that need replacement, flushing blow-offs, weekly checks on generators, WS comes out daily to test/chlorinate the system. So far in 2024, we have made 5 repairs on the system, replaced 1 PRV, have 3 repairs scheduled, and have replaced 1 water main. Need to replace 2 signal wires as well.We have an aging system and we must repair old fittings and broken pipes, so she tries to consolidate miscellaneous small repairs. The goal is to only have planned outages (during repairs) and not emergencies. Propane cost has been reduced by engaging a different vendor. Lagoon liner replacement is imminent. In preparation, pipes have been replaced in the wetland and a controlled burn was used to clear the area.
Other Projects for 2024: Regrading access roads for the reservoirs in preparation for work to restore/repair the reservoirs in 2025. Waiting for an estimate from a local contractor. South water system house meter replacement has been completed (88 customers).
We have 100% compliance with septic tank servicing/cleaning. Prior to the Septic Policy Resolution, we exceeded our allowance for discharge

permit and nitrogen levels were between 7-8. Now nitrogen levels are under 1.

c. **Communications** – Dawne Holz, Chair
Gina Baum has agreed to be the co-administrator on the FB Group with Ms. Holz. Cindy Van Meter is the administrator of the Google Group and has managed it since inception, but she is leaving the community. Clare Miller and Barabar Shulman will manage the Google Group now. Jeffery Stovall is no longer managing the website and Erfan Zafayer has helping. Still need another volunteer for content management. We need a volunteer for the Communications Committee.

d. **DACC** – Gary Farmer, Chair
Mr. Farmer has approved 10 applications this year (after some follow-up on the initial requests). Two persons have asked about purchasing and developing lots. Mr. Farmer emphasized the responsibility of owners to read and have their contractors read the DACC requirements.

e. **Firewise** – Mark Johnson / Shelley Drasal, Co-Chairs
Report filed on- line.

f. **Recreation/Trails** – Chris Peabody, Chiir
Mr. Peabody is clearing trails. Repairing and repaving the tennis courts and pickleball courts is a priority. He will come up with a plan and some estimates for the sports courts.

1. **Pool** – Dave Creason, Pool Manager
Mr. Creason reported uptick in guests at the pool. The inspector initially failed the pool because of an algae bloom. Great group of pool attendants this year. Clare Miller joined as an assistant pool manager. Next year we will be looking at a pool usage fee and will incorporate the fee during the 2025 season. New propane tank at the pool saved us $1000. And the propane cost will be less this year. Pool pillows will be used to reduce debris in the pool after it's covered. An owner asks about the pool usage fee and Mr. Creason asked for ideas from the community. Mr. Katz stated that nothing has been decided and Ms. Holz asked for ideas from the community. Volunteers were requested. Ms. Holz mentioned the $10K pool usage fee from a line item in the budget. Ms.Creason also requested volunteers and ideas from the community.

g. **Neighborhood Watch** – Gary Farmer, Chair
Mr. Farmer updated the NW charter and NW is focusing on being the eyes of the community and coordinating with the site manager. NW is noticing things that are not in compliance with our rules and regulations about trash, parking, etc. If there is a downed tree Ms. Rebant requested that you send a picture so that she can access what equipment is needed. Pictures are also helpful in terms of trash violations.

h. **Social** – Jack Wennersten, Chair
Mr. Wennersten recalled several successful events - Memorial Day and 4th July picnics. Owners' dinner was at Charlotte's Cafe. He has attempted to build partnerships with local merchants.

I. **Welcome** – Rosemary Bigelow, Chair
Ms. Bigelow reviewed the duties of the Welcome Committee and she also organizes the potluck dinners in the community. An owner asked if the Information about the water/sewer system is included in the welcome packet.

VII. Task Forces

B. **Barn** – Dave Creason
The next steps will be to get detailed written estimates as to the cost of repairing the barn. The structural engineer said the cost will likely exceed $100K. Mr. Creason will obtain the estimates and then the community can decide amongst the options. The barn is roped off because it is in danger of collapsing. An owner asked what the cost of razing the barn would be.

C. **Business Use of Property** – Tom Holz
Reports on the website.
Mr. Holz called owners' attention to the Resale Certificate that is now required when owners sell their homes. Ms. Holz was part of a task force group assigned to research and develop a resale certificate for the community. The Board agreed to contract with Homewise Docs to provide the resale certificate digitally or in printed copy. The cost is $64 to the owner and $23 goes to CMA because our bookkeeper has to put in the financial. Then the owner gets a packet that meets the Protection of Purchaser under WV UCIOA 36B. An owner asked if we could control the conversion of personally owned property to venture capital owned clearly for profit for commercial short-term rentals and how much longer it would be before the Board can say we've addressed this issue. Mr. Katz stated that the Board is currently reviewing the issue and thought that within 6 months the Board would make some progress.
An owner asked about meeting minutes and when they would be available. Another owner complimented the Welcome Committee.

D. **Sports Courts** – Chris Peabody
Ms. Holz stated that owners could download a schematic that Mr. Peabody has developed from the CMA website under Contractor and Committee reports from this meeting.

VIII. NEW BUSINESS

No comments.

IX. OWNERS' COMMENTS

An owner asked about the presence of motorcycles in the community. She reported a motorcycle speeding through the community with a loud sound system blaring. The sign at the entrance to the community says "no motorcycles." Mr. Katz responded that we don't have a way to enforce the sign. Ms. Holz stated that nowhere in our governing documents is there a reference to this rule. Ms. Holz

says that it is a noise issue, and a noise policy would address the problem. She suggested calling the owner of the property at which the party is staying.
Another owner expressed appreciation for the work of the Board.
The site manager expressed concern about the growing tourism in the area and the possible conflict with our rules about trailers. Ms. Holz said that if someone wants to bring in a trailer, they could ask the site manager or the Board for permission.
An owner encouraged the members of the community to attend the Board meetings. An owner had concerns about noise from motorcycles that are being gunned as opposed to motorcycles that are quiet. An owner volunteered to help with the website, and remarked that the volunteer opportunities were not announced several months in advance and that many of them were not on weekends. Ms. Creason remarked that we have many volunteer days on the weekend and that weather also plays a part. Another owner remarked that he had been a volunteer and president of an HOA and wanted to volunteer but can't.

X. ADJOURN

Motion: Siri Sophar moved that the meeting adjourn.

Joe Auslander seconded.

Coolfont Mountainside Association - Financial Report
Annual Membership Meeting – September 20, 2025

Report as of 9/10/25. Submitted by Dawne Holz, CMA Treasurer

Overview

The CMA is solvent and operating within budget.

Thank you to the Finance Committee or their work on the 2026 budget and continuing to plan for future expenditures while looking for ways reduce Association costs. The Finance Committee volunteers: Rosemary Bigelow, Dave Creason, Valerie Creason, Tim Flanagan, Tom Holz, Ian Joseph and Cindy Kelleher.

Fiscal Year 2024

CMA finished FY2024 with a net income of $12,186, primarily due to the discontinuation of funding provided to Water/Sewer. The net income was applied to members' equity.

Fiscal Year 2025

The financial report as of 8/31/25 shows expenses at 66.2% through 66.7% of the budget year. Income for 2025 to date is at 98.1% before the Pool Pass net income (due 9/12/25), estimated to be $11,881. We expect to end the year within budget. Any net income at the end of the fiscal year is allocated to members' equity and used for Reserve projects.

2026 Budget

The Finance Committee met in July for preliminary work on the 2026 budget. With input from committee chairs, contract managers, and last year's data, the committee drafted a budget for board review for August. On August 16, the board made a few changes and approved the budget to go to membership for a vote. The proposed general assessment for 2026 is $1,800, an 11% increase over 2025. However, there was no increase in the assessment from 2024 to 2025.

Reserves

CMA's Reserves are held in a combination of CDs and a savings account. The Board will review the Reserve Study for projected expenditures for 2026. The Reserves contribution for 2025 will be fully funded. The Reserve Study was updated in 2025.

The Board approved Reserve funding for these projects in 2024:

- Barn maintenance and inspection ($600)
- Pool furniture, pump, and security system ($1,785)
- Office/Bath house interior update ($2,332)
- Road signage ($879)

The balance in Reserves at the end of 2024 were $326,310.

Coolfont Mountainside Association
Water & Sewer Financial Report
Annual Membership Meeting – September 20, 2025

Information as of 9/12/25. Submitted by Dawne Holz, CMA Treasurer

Overview

The CMA Water and Sewer (WS) is solvent and operating within its budget.

The Finance Committee has been working closely with the WS Committee to address immediate repairs and future infrastructure work.

Fiscal Year 2024

The Association discontinued funding to WS in June 2024, which resulted in a net loss of $7,274, which was covered by owner equity. Total income was 94.9% ($155,706) of budgeted amount and expenses totaled 99.4% ($162,980) of the budgeted amount.

Fiscal Year 2025

The financial report as of 8/31/25 shows income is at 52.7% of the budgeted amount, which is accurate for two of four quarterly billing cycles. Expenses are running about on track at 67.9% through 66.7% of the budget year. Several unbudgeted expenses will impact the 2025 end of year numbers for WS:

- NRWA Loan for Reservoir Rehab, principal and interest
- CMA Loan for Reservoir Rehab, principal and interest
- Payroll for Asst Operations Manager
- WSPSD contract implementation delay due to PSC review

2026 Budget

The WS Committee Chair and Treasurer met in early August for work on the 2026 budget. Using last year's data and new tariff rates, they drafted a budget for board review for August. On August 16, the board approved the budget to go to membership for a vote.

PSC Tariff Review

CMA completed a rate review in December 2024, and the new tariffs took effect that month. Copies of the tariffs are available in the CMA Office and posted on the website.

Due to the increased debt on the utility for infrastructure projects, CMA may need to update tariffs in 2026-2027 to cover the debt payments and increasing costs.

Plant Additions

Plant Additions (reserves) for 2025 ($21,600) are projected to be fully funded. The WS Committee will review the WS project tracking and make recommendations to the Board for projected expenditures for 2026.

The WS Committee recommended and the Board approved funding for these projects in the past year:

- Lagoon Line Replacement, $138,492 ($93,350 loan, $45,142 reserves/equity). Completed.
- WS Access Road improvements, $15,000 ($15,000 reserves/equity). Completed.
- Weinberger (South) Reservoir Rehabilitation, $136,750 ($149,650 loans). Completed.
- R (North) Reservoir Rehabilitation, $12,000 (included in loans, above). Pending scheduling.

CMA Proposed 2026 Budgets

The Proposed 2026 CMA Budget reflects an increase in assessments while still providing full funding to Reserves per the 2025 Reserve Study recommendation. The 2026 CMA W&S Budget reflects the projected income from the 2024 Rate Tariffs set by the PSC in December 2024. The CMA Budget will be amended, if necessary, when the Pool Pass Pilot Program is evaluated and a new system defined for 2026.

2026 Assessment: $1,800 per property

CMA	
Income	
300 General Assessment	$262,800
360 Late Fees	$540

Total Expense	**$207,700**

CMA COMMITTEE REPORT

Committee/Task Force: *SITE MANAGER*

For Month/Year: *August / 2025*

As of: September 18, 2025

Submitted By: *Stephanie Rebant, CMA Site Manager*

Questions / Discussion Points / Approvals Needed (for the Board)

<If any, enter in whatever format you wish. Bullet or numbered listing, etc...>

1. Implemented board approval for SR&J Enterprises estimate of $24,000 for road work and up to 2 days per contractor's discretion to roll gravel at a rate of $1,500 per day. Total approval from the board of $30,000 which includes about a 10% discretionary overage for the site manager to approve any additional needed unforeseen work during the project.

Update - contractor used a common sense approach about gravel distribution, gravel was spread and packed where it was needed to keep costs at a reasonable amount close to budget. Without graveling the lagoon road, pool road and building the utility access road off Salmon Lane, contractor is 4 loads of gravel over budget of the $24,000 allocated amount. Site manager met with the contractor and informed them we planned for some overage to ensure the project is done to standard, the contractor is going to come back with an additional estimate to finish the project.

The utility access road located off Salmon Lane will need tree trimming to widen the road and get a grader on the road and it will be a rustic road, building a road with ditches and culverts is not in the current budget.

In the spring less unless there is major storm damage, less gravel and work will be needed to maintain the roads.

2. Is there funding in the budget to authorize work for trail maintenance for down trees between Salmon Lane and Woodpecker Drive, because of the distance down the trail and tree trimmers having to carry chainsaws and equipment, it is difficult to obtain accurate estimates, I can get a daily rate for cutting trees on trail

maintenance. Need the closest lot number, distance from the road and photos to help speed up the process.

3. Forestry budget has $12,063.78 remaining - Keefer's Legacy Tree Service was approved in April 2025 for tree removal work. Site manager authorized Keefer's Legacy Tree Service to start 2 days of road maintenance work for dead or leaning trees that are a hazard along the roads at $1,200 / day plus tax and he will be taking down the problematic trees around the tennis court for $7,500 + tax for a total of $10,500.

Annual / Monthly Report

Pending Tasks:

- Executing and adjusting short and long term gravel road maintenance plan for CMA to implement on an annual basis.
- Craig Deane has started the white trail staircase project for an estimated cost of $725
- Seeking paving estimates
- Seeking snow removal estimates

Accomplished annual tasks September 2024 - August 2025

- Normal site manager duties - upkeep of grounds, emergency tree removal response, upkeep and maintenance of facilities
  Leaf removal / leaf mulching
- CMA Office floor repair
- Refrigerator replaced CMA office
- Painted interior CMA Office and bathrooms
- Maintain recreation areas and leaf clean up
- Clean pump houses monthly
- Oversight for pest control
- Weekly community inspections
- Community assistance with trash, parking and DAAC violations to assist owners with compliance standards
- Monthly ditch cleaning, road grading, gravel redistribution, leaf blowing, cut back overgrowth for community road and implement once a year gravel road, ditches and culvert cleaning
- Forestry management and overgrowth trimming
- Trail maintenance support of committee requests
- Neighborhood watch support
- Firewise education and support
- Signage projects
- Snow removal
- Address placards

- Reserve study planning
- Stop sign and speed bump improvements - 9 speed bumps were painted & 3 stop sign lines were painted
- Stop signs installed
- Playground bench painted
- Playground equipment cleaned
- Facilitating local licensed and insured contractors to cut and remove down trees at no cost to CMA
- Pool support provided upon request

Completed Tasks August / Early September 2025:

- Maintaining grounds, structures and roads in the community
- Connected with owners regarding trash and compliance concerns in the community
- Provided support to neighborhood watch

Pending Tasks:

- Road maintenance plan execution and modifying
- Trail Maintenance
- Tree removal for tennis courts and community areas

CMA Monthly Status Report

Committee/Task Force: Water and Sewer Operations Manager

For Month/Year: Annual Meeting 2025

As of: September 18, 2025

Submitted By: Cathy Levey, Water and Sewer Operations Mananer

None

Monthly Report

Since our last annual meeting in September of 2024 to date, it has been a very busy year for water and sewer, with a new water and sewer chairperson, a tariff review with rate increases, contract negotiations, and several major projects.

From the operational perspective please note the following:

Water:

Ongoing system checks were done with monthly pressure testing and the replacement of three pressure reducing valves (D Section prv on 6/24/24, I Section prv on 3/31/25 and ABC prv on 8/8/25)

Routine exercising of the valves on each system is ongoing every six months, with valves noted for repair and replacement.

Monitoring of the system occurs daily to locate any leaks promptly. There were eight leak repairs over the past year, with approximately 1400 feet of MNO water main replaced, and the refurbishment of the Salmon booster pump to help to reduce leak percentages. The operations manager notified twelve homeowners of leaks on the homeowner's side over the past year and ensured repair resolution. Leaks on the homeowner's side included water lines and water line connections, a running hose, a hot water heater and toilet leaks.

The operations manager also worked with FE/PE and Frontier (fiber optics) on several occasions over the past year. This included supporting First Energy in October 2024 as they installed underground lines at Whippoorwill Way and assisting with a sewer line break repair and a water line repair inadvertently hit during installation, assisting First Energy with water and sewer line locations in installation of new underground lines to H-8, and working with Frontier in May of 2025 as they installed fiber optics. Follow up repairs were done in response to Frontier sub-contractors (Distinctive) hitting a sewer line at Muskrat Terrace and the 4" water main at Mountainside Road North x2.

Technical support was provided for the access roads re-graded to Weinberger and the cleaning and refurbishment and resealing of the two chambers at Weinberger Reservoir during June and July of 2025.

A part time operator was hired by the water and sewer chairperson and trained by the operations manager from 3/17/25 until his resignation on 8/1/25.

On 8/29/25, the WVBPH inspector was onsite for our every 5-year sanitary survey, with the report to follow.

Wastewater:

A controlled burn was done at the wetlands on 1/8/2024 with good follow up growth.

After finalizing contract negotiations, the lagoon liner project was initiated in November of 2024 with final resolution of concerns in August of 2025. Concerns triggered from visits by the WVDEP inspector, with a report in follow up, were resolved at his final visit on 8/27/25.

Our five-year survey for wastewater was done by the WVDEP inspector in February of 2025 with no violations noted.

CMA Monthly Status Report

After reaching out for estimates for a six-foot fence to enclose the lagoon, a fence was installed by ProFence on 8/19/25, meeting the approval of the WVDEP inspector.

Estimates for electrical re-wiring at the lagoon were submitted from three different companies for later consideration.

Full compliance of septic service/pumping at homes in the community over the past year has resulted in good quarterly testing results at the lagoon.

Ongoing projects include the refurbishment of the R Reservoir, re-grading of the access road to the R Reservoir, replacement of one of the pumps at the lift station, and follow up compliance with our sanitary survey upon receipt of results.

COOLFONT MOUNTAINSIDE ASSOCIATION

COMMUNICATIONS COMMITTEE REPORT

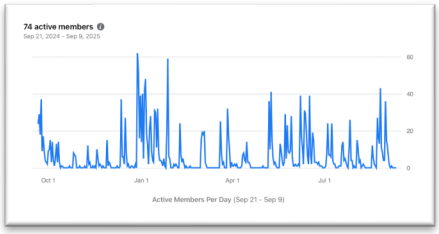

ANNUAL MEMBERSHIP MEETING – SEPTEMBER 20, 2025

Submitted by Dawne Holz *Information as of September 11, 2025*

The Communications Committee continues to manage the Association media, including the Facebook page, Google Group, and Website. Thank you to the volunteers who have helped keep these systems running.

FACEBOOK

A big thank you to Gina Baum for handling admin duties.

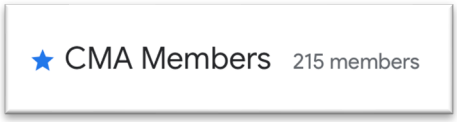

- There are currently 101 members in the group.
- There were 74 active members.
- There were more than 60 new posts added in the past 12 months.
- Admins: Gina Baum and Dawne Holz.

GOOGLE GROUP

Thank you to Clare Miller and Barbara Shulman co-admins the Group. We are currently reviewing the 2020 User Policy for updates. We hope to complete this by the end of the year.

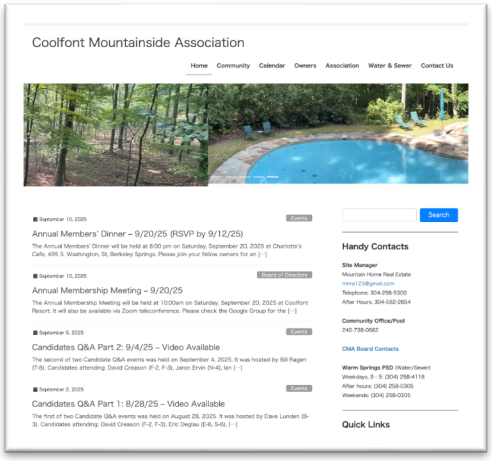

- There are currently 215 subscribers – some lots have multiple members.
- 32 new members were added in the past 12 months, and 34 members were removed – moved away or opted out.
- Admins: Clare Miller, Barbara Shulman.

WEBSITE

The CMA website underwent a theme update and new organization, placing the latest information (posts) front and center on the homepage – making it easier for owners to find info on current happenings.

Thanks to Erfan Zayer for continuing to serve as the "webmaster" and helping to maintain the server, domain registration, and much of the "behind the scenes" work of keeping the site running. Also, big thanks to Heidi Splane who joined the team this year and helps with most of the content management updates. She also worked on the content for our Visitor Information and Winter Weather Tips pages. Admins also keep the Word Press software, plug ins, and themes up to date.

- At the request of owners, new contractors were added to the Suggested Contractors page.
- The amenities page was updated with newer photos of the pool.
- We are currently running WP 6.8.2.
- Admins: Dawne Holz, Heidi Splane, and Erfan Zayer.

Firewise Committee Report

To the

Annual Membership Meeting

of the

Coolfont Mountainside Association

Submitted to

Henry Lynn

Firewise Committee Chairperson

September 20, 2025

As the current chair of the Firewise Committee, I would like to provide this brief update:

Since September 2025, our committee has consisted of myself (Henry Lynn) and Vesta Kimble. We are actively seeking additional members to join and help with our efforts. This fall, Vesta and I have had several discussions, and I conducted a drive-through of the community to observe overall fire safety conditions. I also met with our former Firewise chair, Mark Johnson, who stepped down this summer.

My Drive-Through on September 18, 2025 suggested that more than 95% of homes on the Coolfont Mountainside appear to be in excellent condition with respect to fire safety. Many residents have cleared leaves and brush away from their houses, added gravel around foundations, and cleaned leaves from roofs and gutters.

That being said, the ongoing fall leaf drop, dry weather, and accumulated brush in the common lands appears to be the greatest fire risk as we move into West Virginia's official fire season. In Morgan County, WV, the "fire season" or restricted burning periods are from March 1 to May 31 and October 1 to December 31. During these times, outdoor burning is prohibited from 7 a.m. to 5 p.m. and is only allowed between 5 p.m. and 7 a.m. each day. Fires must be attended, extinguished completely, and contained within a 10-foot clear safety strip of burnable material.

To reduce risk, we ask that all property owners and guests take the following precautions:

- Use fire pits and barbecue grills carefully, ensuring fire pits are at least Ten Feet Away from any structure and covered with a Fireproof lid or cover when not in use. Fire

extinguishing materials such as sire extinguishers, water, or fire blankets should be nearby.
- Smokers should only discard cigarette butts in closed, fire-safe containers. No Butts should ever be thrown off decks or anywhere outside.
- All candles need to be extinguished and only used away from leaves or other brush.
- Stay alert to daily fire conditions and avoid any unnecessary outdoor burning.

Additional safety tips and a homeowner's Fire Safety checklist are available on the Firewise USA website: https://www.nfpa.org/Education-and-Research/Wildfire/Firewise-USA.

Volunteer hours are important as we need to show in-Kind Contribution annually of more than $4,000.00 to remain a Firewise Community. Volunteer hours can include activities such as using a leaf blower or raking leaves away from your house, spreading gravel around the foundation of your house, cleaning gutters, blowing leaves off of a roof, or removing brush and fallen dead trees and from your property as well as common land. The cost and time for removing trees for fire safety (in compliance with CMA Tree Cutting Policy). Time and cost for maintaining safe and clean Wood Stoves and Fireplaces could also be reported along with time and money spent to safety stack and store firewood.

A Firewise Volunteer Hours *documentation link* (developed by Vesta Kimble) is now on the CMA website. Recording volunteer time is essential to maintaining our Firewise Community status, as it provides the in-kind contributions documentation that needs to be submitted to Firewise USA by November 21, 2025 this year. Hours from the Link on the CMA Website go into a Google Table for Calculating annual in-kind contribution. As of September 17, less than 20 owners had completed Firewise Volunteer Hours Sheets for 2025. Therefore, we need all CMA owners to submit their volunteer hours.

Thank you all for your continued efforts in keeping Coolfont safe and fire-resilient.

Sincerely,

Henry Lynn

Chair, Firewise Committee

Hey folks -

First - sorry I'll miss the Board meeting next Saturday. Lisa and I are volunteering at a friend's charity event in Pinehurst NC all day.

Second - I don't really have anything major to update nor contribute to the Recreation Report, so I'll just share a few tidbits here. Over the last year I was able to keep the trails fairly clear of debris, added two new White Trail signs, and I did invest some time into clearing up an overgrown section of the White Trail between Salmon Lane and the Blue Trail.

As everyone is aware, we've not made progress on the Sports Courts - hopefully we can get that on the Communities "front-burner" in 2026. Funding remains the hurdle.

Like always - thanks to everyone on this list for all you do! Sorry I'll miss next week.

CMA Monthly Status Report

Committee/Task Force: Recreation - Pool

For Month/Year: 2025 Season

As of: September 19, 2025

Submitted By: David Creason, Pool Manager and Certified Pool Operator

Questions / Discussion Points / Approvals Needed (for the Board)

1. Recommend contracting with The Bugman for insect treatments every year. We contracting with them for treatments at the pool for the first time in 2025 and the reduction of insects was quite noticeable, making all our guests more comfortable during their time at the pool.
2. Recommend we hire a professional landscaper to deal with the encroaching weeds, vines, and brush, and to maintain/feed/mulch the trees and plants added over the years.
3. Recommend we hire a professional landscaper to revitalize the grassy areas (mix in new soil, lay new sod, fertilize monthly, aerate and overseed annually).

Season End Report

A. As CMA's Certified Pool Operator (CPO) the following was performed in 2025:

- performed all seasonal opening tasks
- tested at minimum twice daily each pool, adjusted chemicals, as needed
- ensured all safety and facility rules were followed
- Health Department (HD) Inspections and Reports:
    - met with the HD Inspector for season opening inspection
    - passed an early August surprise inspection (including lab tests on the pool water) by the Health Department
    - submitted weekly CPO logs to the HD, as required
- performed all seasonal closing tasks with some help from Stephanie Rebant's crew

B. As CMA Pool Manager (Volunteer) the following pool facility improvements and tasks were performed in addition to the CPO functions noted above:

Electrical upgrades – Vetted, coordinated, and provided oversight on the following tasks performed by hired licensed electricians.

- replaced the power line from the transformer to the service panel, properly in buried conduit

- replaced the power line from the service panel to the cage, properly in buried conduit

- replaced the service panel meter, rewired all service panel connections, placed all wiring in properly installed conduit between the service panel and buried conduit from the transformer and to the cage

- installed new junction box in cage, with new wiring in buried conduit to each of the 3 pump switches

- installed a new outlet to power additional tools, lights, etc., used during maintenance and repairs

Cage and cage fence improvements – Vetted, coordinated, and worked alongside workmen or contractors* to help keep costs down on the following items:

- while burying the new water and electrical lines, formed swales to divert surface water away from the cage*

- added french drain ditches between the new swales and the cage, to divert rain water and prevent silt deposits inside the cage*

- added railroad ties to block soil and debris from flowing into the cage

- added a railroad tie step inside the cage

- removed years of silt/soil build up inside cage and around the pool equipment and added gravel to prevent soil splashes on equipment during rain storms

- expanded the 12' high cage fence to double the enclosed area, improving access to equipment and reducing trip hazards and the chance of injury*

- added a new 3' wide by 12' high gate at the back of the cage, allowing access from the new road*

- repaired old barb wire on the top of the fence and continued barb wire to full perimeter of cage area fence*

Equipment Improvements, Repairs, and Replacements –

- repaired the main pool heater (disassemble, clean, repair, install new insulation tape, re-assemble)

- installed a new spa pump (same model as the main pool pump, with wi-fi and app control, variable speed, programmable), with plumbing connections to allow a quick swap between the main pool pump and spa

- installed a new spa chlorinator

- buried the spa filter drain line to reduce tripping hazard

- rerouted all 3 filter drain lines to send filter backwash/waste away from the rear of the cage

Cage and Tank Access Road improvements – Vetted, coordinated, and provided oversight on the following tasks performed by hired licensed contractor:

- created a new access road to the propane tank and rear of cage, easing delivery of propane, pool equipment, pool supplies*

Furniture Replacement –

- purchased, delivered, and assembled new loungers and chairs

C. As CMA Pool Attendant Manager (Volunteer) the following was performed by Valerie Creason.

- vetted, interviewed, and processed all onboarding paperwork
- conducted pool attendant training session on all equipment, safety procedures, rules, and all opening/closing tasks.
- shadow training – over the first couple of weeks, met with Attendants at key times to support them as they
    - learned the pool pass system (twice),
    - opening/closing procedures
    - operation of equipment (vacuuming, cleaning skimmer baskets, waterfall, hot tub operations, etc…)
- entered timecard data manually for payroll processing
- coordinated and created a monthly attendant schedule/calendar
- worked with attendants on scheduling as family vacations and before school activities were realized.
- respond quickly to attendants' requests via phone, text, and/or in person should a question or issue arise

CMA Monthly Status Report

Committee/Task Force: Neighborhood Watch Committee

For Month/Year: September/2025

As of: September 17, 2025

Submitted By: Gary Farmer, Chairman

Questions / Discussion Points / Approvals Needed (for the Board)

1. Trash spills resulting from bear strikes continue to be the most reported issue.
2. Attached is a flier from WV Dept of Natural Resources on bear prevention. If authorized by the BOD, it will be distributed via email to the community.
3. A manufacturer of bear resistant metal trash bins has been contacted and is willing to provide discounted pricing for CMA home owners. If requested by the BOD, this information will be forwarded to the BOD for consideration.

Monthly Report

The committee has a new member, Henry Lynn. He has done a “ride along” and will do another before beginning a regular patrol.

Be BearWise
AT HOME

Six At-Home BearWise Basics

Never Feed or Approach Bears

Intentionally feeding bears or allowing them to find anything that smells or tastes like food teaches bears to approach homes and people looking for more. Bears will defend themselves if a person gets too close, so don't risk your safety and theirs!

Secure Food, Garbage and Recycling

Food and food odors attract bears, so don't reward them with easily available food, liquids or garbage.

Remove Bird Feeders When Bears Are Active

Birdseed and grains have lots of calories, so they're very attractive to bears. Removing feeders is the best way to avoid creating conflicts with bears.

Never Leave Pet Food Outdoors

Feed pets indoors when possible. If you must feed pets outside, feed in single portions and remove food and bowls after feeding. Store pet food where bears can't see or smell it.

Clean & Store Grills

Clean grills after each use and make sure that all grease, fat and food particles are removed. Store clean grills and smokers in a secure area that keeps bears out.

Alert Neighbors to Bear Activity

See bears in the area or evidence of bear activity? Tell your neighbors and share information on how to avoid bear conflicts. Bears have adapted to living near people; now it's up to us to adapt to living near bears.

CMA Monthly Status Report

Committee/Task Force: Barn Task Force

For Month/Year: September/2025

As of: September 17, 2025

Submitted By: Gary Farmer, Chairman

Questions / Discussion Points / Approvals Needed (for the Board)

1. Why wasn't this Task Force consulted prior to the Barn Question for Owners being included in the Annual Meeting? While this owner/member of the association has authority to include this item in the Annual Meeting, not consulting the existing Task Force prior to this action is discourteous to the Task Force and its members.

Monthly Report

. The Task Force held its initial meeting on September 11, 2025. Seven members participated via Zoom meeting. The meeting included member introductions and a brainstorming session regarding uses and plans for the barn.

The Task Force will produce a report including its purpose, definition of work, schedule of work, and deliverables to the BOD.
