Committee Reports

CMA Board Meeting

Coolfont Mountainside Association

Coolfont Mountainside Association
Board of Directors Meeting
January 18, 2025, 10:00am
AGENDA

I. Roll Call – Proof of Quorum

II. Election of Officers

III. Approval of Minutes
a. December 16, 2024

IV. Reports of Officers and Directors
a. President's Report
    i. Reminder to owners to remain courteous to CMA staff and support contractors.
b. Vice President's Report
c. Treasurer's Report
    i. Update
    ii. Reserve Study
d. Directors' Reports

V. Site Manager Report, Stephanie Rebant, MHRE

VI. Committee Reports & Chairs

a.	Communications	Dawne Holz	Previously distributed
	i. Visitor Information page for website		
b.	DACC	Gary Farmer	Previously distributed
c.	Firewise	Mark Johnson	Reminder Provided
d.	Neighborhood Watch	Gary Farmer	Acknowledged No Update
e.	Recreation	Chris Peabody	Previously distributed
f.	Social	Vacant	No Update Provided
g.	Welcome	Rosemary Bigelow	Previously distributed
	i. Draft Welcome Letter		

VII. Task Force Reports & Chairs

a.	Barn	Dave Creason	Acknowledged No Update
b.	Sports Courts	Chris Peabody	Waiting on Funding

VIII. New Business
a. Appointment of Committee Chairs and Liaisons for 2025
b. Appointment of Task Force Chairs and Liaisons for 2025
c. Monthly Board Meetings Schedule for 2025
d. FirstEnergy remains delayed in the removal of an unused wire in H Section – Follow Up Needed
e. Estimate to Paint Lines at new 3-way Stop Signs
f. Task Force & Committee Volunteers
    i. Community Notice for four volunteers to join the By-Laws Task Force
    ii. Community Notice for two volunteers to join Nominating Committee
g. New Owner Contact Form – Update
h. Resale Violation

IX. Old Business
a. CMA Policy Resolutions

Next Meeting – TBD

i. Noise Policy – Draft created – Pending Board review and edits
ii. Short Term Rental Policy – legal review
iii. Schedule of Fines, Fees, and Charges – legal review
iv. Enforcement – legal review

b. Project List

X. Owners Forum

XI. Executive Session (held prior to open session)

a. Delinquency Report
b. Violations/Legal

XII. Adjournment

Coolfont Mountainside Association
Board of Directors Meeting – January 18, 2025
Financial Report

Submitted by Dawne Holz, CMA Treasurer

Overview

The financial reports as of 12/31/24 are attached and cover 100% of the 2024 budget year. Expenses are at 101.4% – slightly over budget. This preliminary end of year report shows a surplus of $9,867.05, primarily due to the discontinuance of funding to CMAWS in July 2024. We anticipate this final number will change before closing out 2024. Any remaining funds are applied to equity.

Meetings

There were no Finance Committee meetings since the last board meeting.

Delinquent Accounts

There are no unpaid 2024 assessment accounts. The last was paid on 7/7/24.

Updates

Updates include details of attached reports as of the end of the previous month.

December/January

- Set up new 2025 budget in QuickBooks. Still working to close out 2024.
    - BTM will complete transfer from CMAWS for final payroll
    - BTM will reallocate other payroll items to CPO and Pool Attendants, as appropriate.
    - Waiting on any final 2024 invoices.
    - Set up memorized QB transfers for CMA and CMAWS for reserve funds, respectively.
- Finance Charge rate (interest rate) updated to 10.5% for 2025 (Prime 7.5% + 3%)
- Mileage rate increased from 67 cents/mile to 70 cents/mile (CMA uses IRS business mileage rate). Updated Neighborhood Watch mileage spreadsheet with new rate for 2025, though no reimbursements have been requested since April 2024.
- Invoices for 2025 Annual Assessments were sent out on 1/1/25. About 25% of owners have paid to date. Reminders will go out on/about 1/15/25 and again just before deadline of 1/31/25. Late fees will be applied after Feb 1.

MOUNTAIN HOME REAL ESTATE, LLC

MONTHLY STATUS REPORT FOR December 2024
As of: 01/14/25

Questions / Discussion Points / Approval from CMA Board:

(1) The engineering study company that is going to assess the roads needs to look at a better long term solution for Q-3 - R-3 hillside and ditch area that leads to a riprap (narrow ditch) that has to manually be maintained and cleaned because excavation equipment would cause severe erosion issues and would collapse the hillside into the ditch and road.

(2) Consider budgeting $9,000 for tree removal before repaving tennis courts and moving playground equipment to game court area

(3) Request an additional 2 days of work at an estimated cost of $2,900 from GHS hoping this is enough time to get the following items done: clear culvert and improve ditch area near O-6, clean ditch in front of H-4 and Woodpecker Lane, clean the crushed culvert at the entrance of Woodpecker Drive, clear the clogged culvert at A-5, clear Bluebird Lane culvert

Pending Tasks:

- Working on developing a short and long term road maintenance plan for CMA to implement on an annual basis.
- Culvert list and storm water ditch list is being put into 2 community maps so an annual, 3 year and 5 year plan can be put in place marked with priority areas.
- Ditch cleaning needs to be conducted twice a year.
- The site manager has been allocated $20,000 in reserve funding to make a recommendation to the board to maintain the gravel and paved roads, ditches, culverts and fix the pool road. Site manager is working GHS Excavation and Weaver Paving, an onsite assessment of the community was conducted.

Tasks Completed:

- Normal site manager duties - upkeep of grounds, emergency tree removal response, upkeep and maintenance of facilities, snow removal
- Craig Deane install stop signs and speed limit sign at first intersection area

Tennis Courts Planning Consideration:

If repaving is being considered for gamecourts, trees that are causing roots to pop up the existing pavement should be removed, this will also reduce debris on the gamecourts and reduce safety hazards. An estimate was provided by Keefer's Legacy Tree Service to remove 65 trees from the mailbox side of tennis courts to Mountainside Road towards Buckwheat Court, trim up 3 large pine trees and remove a row of sticker bushes: $8,000 - $8,500 plus tax ($9,010). Chip and remove all debris, leaf blow everything. Needs to be done before April 2025.

Playground equipment should be moved from the current site - it is located in a low, marshy area and relocated to the tennis courts. There is not enough space near the handicap parking and picnic table to move the playground equipment there.

Road Maintenance Plan Overview:
Phase 1: Ditch cleaning
Phase 2: List Priority culverts to be cleaned
Phase 3: Update community map with ditches and cultverts. Color coded system - red (address NOW), yellow (address next year), green (nothing needed at this time)
Phase 4: Gravel Road Plan
Phase 5: Blacktop Road Plan

Allocated $20,000 for road maintenance in budget
-GHS ditch cleaning around $5,800 (slow to invoice)
Estimated remaining amount: $14,200
-Requesting an additional 2 days of culvert and ditch work estimated at $2,900
-this will leave around $11,300 for grading and gravel in the spring

Road Maintenance Summary:
At the November 2024 BOD meeting, the site manager received approval for $1,360 / day + tax for up to 4 days = $5,440 + tax for ditch clearing so culverts can be assessed and prioritized. Ditch cleaning, re-establishing sediment filled ditches and digging out culvert entrance was done from Herbert Quick Drive to Mountainside Road from O-5 to A-6.

Ditch priority cleaning as of 12/17/24 for GHS Excavating
Mountainside Road
Bobcat Drive Upper side
Salmon Lane - both sides
Whipporwill (upper side at entrance) and Woodpecker Lane (upper side)
Warbler's Way - inside ditches next to K-10 and K-17
Wintergreen - upperside
Dogwood Lane - mainly upper side & Cardinal Lane - towards turnaround

12/13/24 - Tucker dug, widened and cleaned out ditches along Mountainside Road from O-6 to Daffodil Terrace. Ditches were in nearly nonfunctioning condition, filled with debris and sediment. Additional work is still needed in the lowest spot of the culvert and ditch area in front of O-5.

12/17/24 - GHS cleaned and widened ditches from along Mountainside Road from Daffodil Terrace to the entrance of Woodpecker Drive. Also cleared the saplings from the ditch areas from pump house at 128 Salmon Lane to the 15 mph speed limit sign (Keefer's Legacy Tree Service earlier in 2024 cleared the trees from the entrance of Salmon to the pump house).

12/19/24 - Brian Yost cleared Bluebird Lane and Salmon Lane ditches (there are some deep ditches along Salmon that will need the trencher that Brian's machine cannot access)

12/31/24 - Brian Yost - cleaned ditches on Wintergreen, end of Bobcat and Woodpecker

12/31/24 - GHS Excavation - Bobcat Drive ditch cleaning, hauled leaves from riprap at Q-3 - R-3, leaf blowing the upper portion of Bobcat Drive (3) people. From Q-3 to R-3 is a hillside that equipment should never dig out the ditches, the ditches need to be hand shoveled and leaf blown because of erosion issues (riprap) when the road was constructed the original developer elected for the cheapest possible drainage system which was a riprap. The engineering study company needs to look at a better long term solution for this section to establish the ditch and prevent erosion issues.

Future assistance GHS Excavation that Brian cannot get to:
Deep ditches Salmon Lane
Ditch on Woodpecker Drive
H-4 - ditch is too deep for Brian's equipment
A-5 - culvert needs cleared at both ends
Bluebird Lane entrance - culvert is too small, needs replaced and until replaced it should be a priority to clean it

Other issues:
Crushed culvert needs raised at Woodpecker, Tucker bent the opening so it will function
Whipporwill Way area needs leaf cleaning

General Overview:

- Working with Dennis Schaffer on a gravel road improvement plan with board guidance and Weaver Paving for blacktop estimate.
- Pump houses are cleaned monthly and checked weekly, with dry conditions pest treatment has been needed.
- Brian Yost, Victor Stevens, Eric Whited and Stephanie Rebant conduct several weekly community inspections - mark dead trees, check for trash and violations, leaf blow tennis courts, pool and office grounds, check barn.
- Provide support assistance for water and sewer operations or any committee request with board approval
- On a monthly basis Brian Yost conducts ditch cleaning, road grading, gravel redistribution, leaf blowing, cut back overgrowth for community road
- Special thanks to Cathy Levey, Gary Farmer, neighborhood watch and community members who are communicating and reporting tree and road concerns on a regular basis to help the community

b. Sewer
    i. Lagoon Liner Project
    ii. Other Activities & Updates
c. Project List
    i. Septic Survey – (*See section V.d)*

V. W&S Funding, Cindy Kelleher
a. Weinberger and R Reservoirs Refurbishing - Estimates, funding, and timing
    i. NRWA Loan and financing $42,000
    ii. Access Roads to be completed first (est. Early Spring)
b. WSPSD Contract Renegotiation
c. Posting of part-time WS Operator position
d. Septic Maintenance Policy Revisions (based on gallons) – Status

VI. Owner Forum

VII. Executive Session (held prior to open session)
a. Delinquency Report

VIII. Adjournment

Next Meeting – TBD

Coolfont Mountainside Association – Water & Sewer
Board of Directors Meeting – January 18, 2025
Financial Report

Submitted by Dawne Holz, CMA Treasurer

Overview

The financial reports as of 12/31/24 are attached and cover 100% of the budget year. Expenses are slightly over budget at 105%, however, income was 123% of budgeted amount. The attached report shows a loss of $6,516.64 due primarily to suspension of funding from CMA in July 2024. This may increase a little with the payroll transfer to CMA. To be covered by equity.

Accounts

2024 Q4 Billing

- Invoices sent out on/about 12/11/24.
- Reminder invoices sent on 1/3/25. Late fees to be applied to any outstanding accounts on/about 1/7/25, invoices emailed.
- Will mail statements to any unpaid accounts on/about 1/20/25.

2025 Q1 Billing

- See information concerning prorating invoices under Tariff Review, below.

NWRA Loan

- Automatic debit payments are working as expected.
- Requested updated amortization schedule to be sure QB is accounting correctly.
- Loan payments are split between the loan liability and interest expense. The interest expense shows on the annual operating budget on line 775. The principal remaining on the loan is shown as a liability on the Balance Sheet report. Principal payments are not included as an expense on the monthly operating budget reports.

Monthly Updates

Updates include details of attached reports as of the end of the previous month.

December/January:

- Updated budget based on new tariffs circulated to WS Committee and Board on 1/5/25 for discussion and approval.
- Will set up new 2025 budget in QuickBooks when approved. Still working to close out 2024.
- The mileage rate increased from 67 cents/mile to 70 cents/mile (IRS business mileage rate).

PSC Tariff Review

- Please see earlier history of project on previous board reports available online.
- Received final tariffs from PSC. Returned signed copies to PSC via mail. Posted copies in WS office and on CMA website.
- Customer meters were read on 12/10/24. We may have to prorate the March invoicing to compensate for the 11 days of service at the Interim Rates.

- Preliminary review shows customers using less than the minimum bill of 3,000 gallons will pay less with the new rates, no prorating required. Customers over the 3,000 gallons minimum will realize a very small savings by prorating the usage between the Interim and Final tariff rates.
- The Treasurer will work with bookkeeper to determine the best way to reflect this on invoices for the 12/11/24 to 2/28/25 billing period. Invoices to go out in early March.

Water Committee Report for the January 18, 2025, CMA Board Meeting

The new water and sewer rates went into effect in late December 2024, and Dawne Holz, our treasurer, will be working with our accountant to accommodate a rate change within a quarterly cycle to ensure accuracy of billing. The updated W/S budget, adjusted to include the new rates, will be presented to the board by Dawne for their approval at the next board meeting.

The water and sewer committee currently meets on the second Wednesday of every month, with the most recent meeting on 1/8/25. The agenda included:

1) Operations
    a. WSPSD Contract
    b. Job Posting
    c. C. Septic Policy
2) Infrastructure and Financing
    a. NRWA loan filed
        i. Financing of $42,000
    b. Other Finance Options
        1. Microgrants
3) Long Term Planning
    a. Home Owner Education
    b. Capital Planning
    c. Future Management Options
        i. Consultant

Rosemary Bigelow is the newest member of the water and sewer committee, attending her first meeting on 1/8/25. Sincerest thanks to Rosemary for her support and her offer to help Cindy Kelleher in researching microgrants.

A follow up meeting is scheduled with WSPSD on 1/13/25 to discuss the revised contract (with extensive revisions by Cindy Kelleher to address are more equitable, concise, and clearly stated contract for both parties.)

Water Operator's Report:

No emergencies to the water system occurred throughout the winter holidays (with robust occupancy in evidence) and throughout the snow events. Daily monitoring of the systems occurred throughout thanks in part to our site manager's snow plowing efforts. Two relatively minor concerns were resolved in a timely manner. One included a frozen drain at the North Pump House and the other involved a hose that was left on at one of the houses, which subsequently froze and then thawed, spraying water for nearly 24 hours before it was discovered by the operations manager. Several phone calls, a text message, and an email to the rental company/homeowner to alert him the meter was still turning slowly despite shutting off the hose resulted in a resolution within three days.

Projects anticipated for 2025 have been compiled and sent to the contractor for his review and scheduling. Please see attached list.

Wastewater Report for January 18, 2025, CMA Board Meeting

On December 20, 2024, six rolls of lagoon liner (each weighing between 1000 to 2000 pounds) were delivered onsite for future installation. Daily checks by operations manager and near daily checks by WSPSD crew to assess the level of the lagoon, the aerator status, the UV system, and the additional discharge by way of the pump are ongoing. As the level continues to drop, minimal sludge is apparent (comprised primarily of vegetation and leaves.)

John Disanto is arriving on 1/13/25 to address the next phase of the lagoon liner project, which includes further emptying the lagoon to the wetlands, transferring sludge to the temporary basin onsite, moving the rolls of liner to the lagoon site itself, and removing the stone from around the periphery of the lagoon. This phase of the work is expected to take 5 to 10 days.

I want to extend a special thanks to Steph Rebant of B.S.C.R. and the homeowners here at CMA who have offered John accommodations during his stay at generously minimal fees.

Reminders for septic tanks to be pumped/inspected this year are to begin in mid-January.

The septic tank policy is undergoing revision through the efforts of Cindy Kelleher in coordination with the W/S Committee.

Projected Water and Sewer Projects for 2025:

Water System Repairs-

Locate and repair a leak in the L Section

Repair a Leak in the N Section

Replace the prv for the ABCD line

(Will continue to monitor small existing leaks in the A section, the H section and somewhere on a non-metered line.)

Hold on any water main replacements until further assessment is completed and other projects are done

Lagoon liner replacement-

Estimated another couple of months to complete

Cleaning and refurbishing the reservoirs-

Work is estimated to start this spring **however the access roads to each reservoir must be completed first, and the work on the roads is estimated to be completed in early spring.)**

(Pool work-

Repair a water line that is leaking just outside the cage

Grading around the cage, inside the cage and to the access road behind the cage to the propane tank)
