THE MOUNTAINSIDE NEWS

Volume 1, Number 3 May/June 1986

ACTUALLY, THE COMMITTEE HAS MADE PROGRESS...

As reported in the last newsletter, the "bi-partisan" Phase II Committee, chaired by Lon Dring, was charged by the Board to produce a consensus report spelling out CMA's position on all pending disputes (including litigation) between CMA and CDC. After many long hours of work, with efforts by all to maintain good will, the Committee will be presenting its final report to the Board at its June 14 meeting at Coolfont.

"It'll be interesting to see their report."

The Committee is attempting to reach agreement on all issues. On those few issues as to which the Committee may not reach a consensus, it will offer the Board alternative proposals from which to choose. The Board thus will be able to pull together a final CMA position. (cont.)

COMMITTEE..PROGRESS (cont.)

Board President Don Fox comments... this will mark the first time in over five years that the task of settling our disputes with CDC has been addressed with this level of unanimity among the membership. Providing CDC and the CMA members approve the document, the long-standing disputes will finally be put to rest.

POOL OPENS!!!

Memorial Day Weekend

Saturday, May 24 at 11 AM

See attached 1986/Season informational sheet and rules

TRY TO REMEMBER...SEPTEMBER

The Annual Meeting this year has been set for Saturday, September 27th.

THE NEXT BOARD MEETING...

will be held at COOLFONT (the barn) Saturday, June 14, at 9:30 AM. As always, the meeting is open to the members, and up to an hour at the beginning of the meeting is "members' time."

Published by the COOLFONT MOUNTAINSIDE ASSOCIATION, Rt. 1, Coolfont Rd. Box 21, Berkeley Springs, WV 25411
Editor: Carol M. Green, 3703 Curtis Ct., Chevy Chase MD 20815. 301/654-7737

LETTERS

This space is still available for your comments in the July/August edition (please submit by the first week of July). We are contemplating a special SOUND-OFF edition just before the September Annual Meeting (to save everyone postage!) More on this in the next issue.

ELIMINATING LOOPHOLES

Portions of the loop road have been re-surfaced at an extremely good price because Operations Manager Dick Minnamon was able to make special arrangements with a local contractor to swing by with materials leftover from other jobs.

FUNDRAISER FOR CAMPSITE

The progressive dinner party planned for May 17 by the L.A.M.B.s (Ladies Auxiliary to the Mountainside Board) to raise money for a CMA campsite was cancelled due to lack of response. Several people commented that it was a particularly bad weekend. If there is enough interest, the L.A.M.B.s would be happy to re-schedule the dinner later in the summer. Please contact Rosemary Bigelow, 304/258-1611, if you'd like to see it given another try.

The group did receive several donations (they have been turned over to the Board to be set aside for the development of the campsite) and would be most grateful for any further contributions. They may be sent to Rosemary at Coolfont or to any member of the Board.

INSURANCE COVERAGE

CMA member Robert Harned appeared before the Board at its April meeting with many helpful comments regarding our insurance coverage. He agreed to meet with a special Insurance Task Force, chaired by Jim Lancaster, to (cont.)

INSURANCE (cont.)

explore further such matters as property damage coverage and the possibility of a lowered group rate for homeowners.

NEW MEMBERS

Welcome to Sally and Bob Dowling who recently bought lot K-16 from the Poyners. The Dowlings are from Gaithersburg MD and have a son, 17, at home and an older son and daughter.

RECOMMENDED PLANTINGS

A report from the Soil Conservation Service advises that the following trees (all pines) will do "quite" well in general on the mountainside if there is sufficient sunlight through the tree canopy to reach the seedlings (the most ideal conditions will be found along the relatively level land through the A and C sections and especially the boggy area behind lots C-5 and C-4): white pine (the best) Virginia, red pitch and shortleaf pines. Recommended sub-story and shrubbery for the area are: laurel, pyrocantha, azalea, Japanese Holly and Canadian yew. They should be planted on the down-slope and southern sides of the homes.

GENTLEMEN'S SPRING AND BATH HOUSE.

BERKELEY SPRINGS MUSEUM

You might enjoy a visit to the recently opened Berkeley Springs Museum, located on the second floor of the Roman Bath Building (built c. 1820, it is the oldest public building in Morgan County). Exhibits depicting early settlers of the area and prominent people connected with The Springs are on display. Berkeley Springs, or the Town of Bath, as it was called was created in 1776 from land owned by Lord Fairfax. The Springs have long been a popular spa because of the naturally warm water, a constant 74°. Beginning May 28, the Museum will be open Wednesday through Saturday from 10 to 4 PM, and Sunday from noon to 4 PM. Admission is free.

FROM CDC...

--Following are details concerning renewal of memberships in the Coolfont Lake Club for 1986: Annual dues, payable in advance are $140 for homeowners and $25 for lot owners. Each member family is entitled to five guest passes, each good for seven consecutive days. Additional guest passes may be purchased at a cost of $100 per week for a family of six. Renewal applications will be mailed out soon to all 1985 members.

--Coolfont has appointed a new manager, Maurice Fitzharris, effective April 29. Mr. Harris has had extensive experience in the resort industry, most recently as Vice President and General Manager for 12 years of a Mobil-rated "four star" resort and marina in Wisconsin. He and his wife Nell plan to buy a home at Coolfont.

WOULD THAT IT WERE...

We reported incorrectly that Bob and Sarah Hay's home (F-4) is near completion -- actually they have just passed the plan approval stage.

Watch For Termite Signs Around Home

Be on the lookout for those highly destructive termites around your home. Termites swarm from March to May, depending upon temperatures. This is about the only time you can see them without conducting a probe-and-search operation.

The swarming may have already taken place around your home and you didn't see it. Check any spider webs around or under the house. One good place to check is a web located near the entrance to the crawl space under the house. Swarming termites may have become entangled in these webs.

Identifying a termite is easy, even for a person who knows little about insects, suggests David O. Quinn, pesticides and chemicals extension specialist at West Virginia University. Take a close look at the area directly behind the insect's legs. If that area is broad and about the same diameter as the rest of the body, it's a termite. Take a look at the wings. On a termite, all four wings are about the same size. Check the antennae. Those on a termite are fairly straight, with no elbow.

If you are still not sure, take a sample to the Morgan County WVU Extension Office for positive identification. Once it has been identified as a termite, then you can ask, "What do I do?"

The best move is to call a professional licensed pest control operator. Don't panic. Termites work slowly. Call several companies and have them come out and take a look. Get several estimates before contracting the job. Get each pest control operator who gives you an estimate to describe the treatment in detail so that you will be able to compare cost estimates. Don't be surprised if the estimates range upwards of several hundred dollars. Ask others who have had their homes treated for their opinions of the work.

A termite job done correctly will usually last as long as the building does. Some pest control operators will offer an annual inspection service and guarantee against future termite damage. These inspection services can be worthwhile, if they don't cost too much. In most cases, only an inspection will be necessary, and the pest control operators will not have to apply additional treatments.

1986 SEASON PLAN - CMA SWIMMING POOL

A) Pool Hours: Weekends (Memorial Day - Labor Day) Friday and Saturday 11 AM-8 PM, Sunday 11 AM-6 PM. (The pool is reserved for members and accompanied guests from 11 AM-noon, and from 7-8 PM) Weekdays from June 15 on: noon-6 PM.

B) Jacuzzi Hours: The jacuzzi will be heated only on Friday and Saturday between 6 and 8 PM, and at other (random) times when the pool is being heated.

C) Lifeguards will be on duty at all times. The lifeguard will: 1) maintain the pool log book; 2) issue or sell badges and punch cards (members' checks should be made out to "The Coolfont Mountainside Association, Inc."); 3) enforce the CMA Pool Rules; 4) have the authority to expel any swimmer from the pool area and to close the pool at any time he or she deems it prudent to do so.

D) Pool Use is restricted to:

1) CMA members and members of their immediate families. Members who have not been issued Green (season) badges can obtain them at the pool. The fee is part of the annual assessment.

2) Accompanied personal guests of members will be issued a returnable temporary badge without charge.

3) Unaccompanied guests or family* tenants of members may be admitted by presenting either: (a) a Red season badge; OR (b) a 20-punch ticket good for 20 daily swims.

(Red season badges for use by guests/ family tenants of members may be purchased by members for a season fee of $200.00, which entitles the member to a number of Red badges up to the number of beds in the member's home. Forty-dollar punch tickets good for 20 daily swims may be purchased by members for use by their guests/tenants (unused portion will be refunded at the end of the season.)

E) All badges are the property of CMA and are recallable at any time. Members are responsible for the green and red badges issued to them and for the temporary badges issued to their guests. A $10.00 fee will be charged for replacements.

F) The CMA Pool Rules for 1986 are as follows:

1) No diving
2) No running in the pool area
3) Inflatable boats or toys are not allowed in the pool
4) Climbing on the walls is prohibited
5) Youngsters must pass a two-lap swimming test for the lifeguard before they may use the roped-off swimming lane
6) Children under the age of 10 may not use the jacuzzi unless accompanied by an adult (16 or over)
7) All swimmers must register (sign) in the CMA pool log book each day they enter the pool area.
8) No soap in the jacuzzi

*Ed. Note: Conference renters are not allowed
