IF IT RAINS CHECK MESSAGE CENTER

Coolfont Recreation presents "CEOLTOIRE" (hammer dulcimer and Celtic harp, traditional folk tunes of Ireland and Scotland) Sat. 8:30 PM, Treetop. A barbecue and mini-carnival... planned for Sunday and a bonfire Mon. eve.

Museum begins season

The Museum of the Berkeley Springs opens for the season this Saturday, May 27. The museum, in Berkeley Springs State Park, will be open six days a week through the Apple Butter Festival in October. The extended hours have been made possible due to hotel-motel tax funds contributed by the Morgan County Commission and Town of Bath council.

This year's hours will be: Thursday-Friday, 2:00 p.m.-5:00 p.m.; Saturday, 10:00 a.m.-4:00 p.m.; Sunday, Noon-4:00 p.m.; Monday-Tuesday, 9:00 a.m.-Noon; Wednesday, closed.

New exhibits

A new exhibit titled "Bathing in Bath" shows the history of the facilities in the park and costumes of the period. Whether "sexes bathing together" should be permitted at the Springs divided the community in 1921.

A display of stemware and other glass objects made from local silica, a quartz sand of the highest grade, has been installed. The items were deposited by E.T. Andrews. Additional items relating the history of silica mining along Warm Springs Ridge will be included. . . . from the MORGANTOWN MESSENGER

SECURITY

Since we continue to have problems with vandalism and theft, CMA and Coolfont Recreation have begun a security patrol on a trial basis. A highly visible, professionally-trained, uniformed and unarmed guard will patrol in a marked car, checking any suspicious activity, persons, or cars on CMA property, as well as the tennis courts, barn and pool areas and any unoccupied houses, as deemed necessary. The guard is hired as a consultant and will be supervised by the Chief of Police, Berkely Springs. His $6 hourly salary will be split 50-50 by CMA and CRI.

Again, the Board recommends that, when your house is unoccupied, you keep expensive items under lock and key, or, preferably, remove them. You may also want to consider installing dead-bolt locks, timed lighting devices, etc., and using an etching tool to mark items for easier identification in the event of theft.

NEXT BOARD MEETING: 9:15 AM, Saturday, July 8, at the small mtg rm, Bethesda Public Library, Arlington Rd., Bethesda.

INTRODUCING A NEW ADDITION

You may have noticed the new message center down by the mail boxes at the tennis courts built for us by Dwain Place (A-1). It is equipped with a bulletin board, pencils, tacks and a card file for convenient note writing. If you think anything else should be provided, call Alice Minnamon (304/258-5352).

MOUNTAINSIDE IMPROVEMENTS

Since the end of the college year in May, Elmer Broxson (H-8) has been spending a couple of days each week getting several projects underway for the Board. These are the results, as of mid-June:

--ten truckloads of rocks have been removed from the pool and the areas re-graded and seeded;

--the contractor for last year's tennis court work has agreed to re-paint defective areas;

--a contract to repair the Barn, as recommended by engineer Andrew Easter's report, has been agreed to and the work will begin shortly;

--another contract has been signed to improve the drainage around the tennis courts, and the fill from this job will be used to create three raised campsites near the pool;

MOUNTAINSIDE IMPROVEMENTS (cont.)

--also being negotiated are contracts to regrade the slope of sewage lagoon #1 (as required by the WV Dept. of Natural Resources) and to connect the water lines of the P and M sections as well as those of the O and D sections to improve water system pressure as recommended by our engineer.

Most of these projects have either been recommended by our engineers or required by the state for several years, but, because of financial constraints, we have not been able to undertake them until now. So, as you will see on your next visit, dirt, rocks and hammers are flying all over the Mountainside!

Report from Elmer Broxson:

3RD ANNUAL POOL PLANT-IN, May 13

Following a brief Board meeting in the Barn the group of about 20 people split into two work parties: one to re-mark and clear the Blue Trail which leads to the top of Cacapon Mountain and the other to spruce up the pool landscaping. Led by Elmer Broxson, the Trail Blazers included Bill Boyden, Charlie Betts and sons, plus three enthusiastic relatives of the Van Belleghems.

Meanwhile down below, Pat Betts prepared a tasty lunch of sandwiches while the Pool Party planted geraniums and mulched the evergreens. In addition to Don, Gloria and Julie Fox, the gardeners included Lynette and Morgan Kell, Marvin and Sarah Wagner, Jeannette Van Belleghem and her sister, and Emmette and Leila Keese. The event ended about 2 PM with lunch at the Betts and an informal tour of their solar-heated house (O-6).
