

THE MOUNTAINSIDE NEWS

April 1992

From the President . . .

. . . . by Jim Bradfield

By now, all CMA members have received my letter announcing a **special membership meeting** at 1:00 p.m. on Saturday, April 25, 1992 at Treetop House, Coolfont. I am sure that all of you realize the seriousness of the reason for this meeting. Failure to move forward on solving our sewage system problems will have an impact on all of us. While some of us are only occasional users of our homes, we have seven permanent residents on the Mountainside. There are eight houses now planned or in various stages of construction. Several of those are for retirement purposes. Additionally, those Association members who depend to varying degrees on the rental of their properties will have that income cut off if we are forced to shut down our sewage system operation. To sum it up, we can't ignore the reality of the situation. I urge you again to plan on attending the meeting; if that is impossible, please exercise the proxy that accompanied my letter.

The Board has compiled a **new general membership list** with complete addresses and home and work telephones (where known). Please check the listing attached to this newsletter and call Sarah Hay [301-926-7007] after April 14 if the listing is incorrect. Copies of the 1992 membership list will be available at the special assessment meeting. If you will not be attending, you can indicate with your returned proxy if you desire a copy of the new list.

I am happy to report that the **Water Distribution Task Force** has had several meetings and is now in the process of reviewing an engineer's study of the adequacy of the system and how to improve it.

The **Berkeley Springs fire and ambulance services** have revisted every home on the Mountainside, and are familiar with our new address and road identification system. We are including in this Newsletter evaluations for homes that have access problems. If no evaluation is included, you can assume that emergency vehicles have clear access to your home. The Fire Chief is completing the paperwork for requesting an evaluation from the insurance underwriters of the efficiency of the pumper truck relay system for moving water from the dry fire hydrant at Lake Siri up the Mountainside.

I am happy to report that Mr. Ashelman has completed the **replanting of trees** replacing those cut down on common land behind D-7.

As previously reported, CMA and CDC reached agreement on the **access to the "S" section.** The developer has experienced delays in getting the agreed access properly surveyed. Thus, there has been no noticeable action on the "S" section.

Coolfont resort has taken measures to ensure that the **maximum number of occupants** in a house rented through CRI is no more than 10 persons with no more than five vehicles. Those members who rent their homes privately must also ensure that this restriction is observed by their renters. There have been reports of private rental groups clogging side roads to individual homes with up to 14 vehicles. This not only creates a nuisance for other homeowners, but it is also a hazard in case a fire or emergency vehicle must gain acces to the road or driveway. Members are reminded that CMA regulations regarding the use of property require that these rules be posted in a conspicuous location and should include provisions such as designated quiet hours, prohibition of open fires, parking requirements, and maximum occupancy.

It is not too early to begin thinking about the four Board vacancies that will occur at the 1992 Annual Meeting on September 5. While not all present members whose terms are expiring have indicated their plans, I think there are several positions that will become vacant. Members who want to serve on the **Nominating Committee** should notify any Board member of their desire. Anyone wishing to serve on the Board should also make that known to any Board member.

I look forward to meeting with you on Saturday, April 25, at 1:00 p.m.

Water-Saving Ideas

"Readers: We recently shared some hints for outside water conservation. Now we are happy to pass on some important hints for conservation inside the home.

Washing machines use from 32 to 59 gallons of water per load, so only wash full loads or adjust the water-level switch accordingly.

A dishwasher uses 14 to 30 gallons of water regardless of the number of dishes in it, so only wash full loads of dishes. Pre-rinse dishes if they will be sitting a day or so.

A drippy faucet can waste from 350 to 2,000 gallons of water a month. Toilets that 'run' after they are flushed can waste as much as five gallons per minute, so repair leaks immediately.

Catch the cold water that runs while you are waiting for it to get hot and use it to water plants.

Consider replacing a standard shower head with a low-flow model. This could save up to 65 gallons of water for each shower taken.

In order to conserve water, we must all work together. It's not too late to start today." --[reprinted from Heloise]

NEWS & NOTES

A Committee is forming to discuss issues and concerns surrounding use of the barns. Anyone interested in meeting to talk about how the barn can best be used, please call Pat Betts (202-333-1923) or Alice Minnamon (304-258-5352).

The Berkeley Springs Post Office has brought the following situation to our attention: Some of you who have post office boxes by the tennis courts are not cleaning them out regularly. The Post Office requests that mail not be left for extended periods of time in the boxes.

CMA Members are requested to discourage their children from playing in the nooks and crannies under the barn. There may be nails sticking out; and there could be broken glass. The Board has decided that, to avoid injury, the barn will be secured and locked. Keys to use the barn may be obtained from Gale Connor (304-258-3975) or Alice Minnamon (304-258-5352).

CMA sadly announces the recent deaths of Mrs. Bigelow, the mother of Stan Bigelow and Alice Minnamon; Betty Fiske; and Arthur Hudson. We send sincere sympathy to each family.

Summer Events at the Barn

The Morgan Arts Council is sponsoring weekend workshops at the CMA Barn at Coolfont this summer. Each workshop costs $75, and registration forms are available from Hands On, P.O. Box 338, Berkeley Springs, WV, phone (304) 258-5540. The schedule of workshops is as follows:

July 11 & 12: Stained glass, basketmaking, weaving for kids

July 18 & 19: Photography, handspinning, and mixed media for kids

July 25 & 26: Lap dulcimer construction, painting on silk, mixed media for kids

August 15 & 16: Hand papermaking, woodcarving, and rug braiding

August 22 & 23: Casting, quilting, and weaving for kids

September 5 & 6: Blacksmithing and pottery decoration (at the home of Glenn Horr and Susan Thomas)

September 12 & 13: Photography, stained glass, and basketmaking

Workshops will be conducted from 10 a.m.-4 p.m. on Saturday and from 10 a.m.-2 p.m. on Sunday. Participants provide their own meal and beverage.

Fun, Art, and Beauty Are Also in the Schedule: April 25-26

The Annual Spring Plant-In will take place on Sunday, 26 April, 1992, to take advantage of those who will be attending the special assessment meeting and staying over for the weekend. It will help Pat Betts if you can give her some indication of whether you plan to participate (202-333-1923). In addition to planting, we take the opportunity to clean the Mountainside roads and easements of all litter. Please bring gardening gloves and tools for planting flowers around the pool. And join us for a walk around the Mountainside; plastic bag provided.

Mr. and Mrs. Vince Amoroso have invited all CMA members to their Coolfont house on Saturday, April 25, at 7:30 p.m. for an Evening with West Virginia Craftspeople. Several local artisans will be present to show their crafts. CMA members are asked to bring an after-dinner edible to share; beverages will be provided. Vince lives at "Numbers" on L-5.
