

THE MOUNTAINSIDE NEWS

August 1992

President's Message...

. . . Jim Bradfield

The biggest news is that **CMA has begun the conversion of our sewage treatment facility to a constucted wetlands treatment system**. The first step is to enlarge lagoon 3 to serve as the sole stabilization pond for all effluents. Over the last several weeks, you have heard the bulldozers and other equipment dig up the area for expansion and level off the berms and floor of the lagoon in preparation for installation of the required liner. Lagoon 2 is being drained and prepared for conversion to a wetlands gravel-bed facility. The final major effort will be to decommission lagoon 1. Normal weather delays have occurred, but it is anticipated that the project will be completed before the Annual Meeting, September 5. Members are invited to visit the area and see the project in action.

* * * * *

The treasurer reports that three members are still in arrears in the payment of their special assessment. The vote for the wetlands project on April 25 was unanimous, and it is unfortunate that a few members have neglected to send in their checks. I urge those members to foward their special assessments immediately to the treasurer (Anne-Marie Doppmann, 8513 Scarboro Ct., Potomac, MD 20854) or face a penalty added to their regular annual assessment in the fall. Those of you who have responded to the second offer to participate in the loan to finance the balance of the wetlands project will be notified soon about details for making the loan.

Good news! Work on the final expansion section, "S," has begun. Wintergreen Way is being extended to serve the seven lots in the new section. Unfortunately, there were some problems between CMA and Coolfont Development Company (CDC) as the work was begun. The road in the "S" section, owned by CDC, was cleared as approved by the Morgan County Planning Commission, but the clearing of the roadway on CMA lands had to be halted until the best route was agreed on by CMA and CDC. Also, construction equipment apparently damaged a water line valve while accessing the "S" section over CMA common lands but was promptly repaired by CDC. Work will resume as soon as the low areas dry out; the work is scheduled to be completed in the fall.

* * * * *

The developer, Mr. Ashelman, has agreed to have **Bobcat Drive paved** as soon as Union Paving can schedule the work. We have agreed to have a superior surface placed on the roadway for an additional cost to CMA of $3,000. The Memorandum of Agreement does not provide for the developer to cover this extra cost. However, we will have a more permanent road surface that will not require extensive maintenance rather than the more temporary surface specified in the Agreement.

* * * * *

We have invited Mr. Ashelman to meet with CMA to narrow or eliminate differences on items scheduled to go to arbitration. He has agreed to meet with CMA on August 29th.

(Continued on next page)

The Board, on the advice of legal counsel and the CMA professional engineer, is still not satisfied that the "R" section turnaround design and construction -- particularly the structural stability of the fill material -- are adequate under relevant governmental provisions or the terms of our Agreement. Consequently, CMA has accepted the deed to the common lands and roads in the "R" section, pursuant to Section IV.C. of our Agreement, but the turnaround at the end of the roadway is specifically and expressly excluded from our acceptance at this time. Under Section IV.C., we intend to monitor the turnaround to determine if repairs or changes will be required over the next year. We have informed the developer that we do not object to Coolfont Development Company (CDC) selling lots in the "R" section. Under the terms of the Agreement, however, any disagreement between CMA and CDC in its implementation will be taken to arbitration for resolution.

The Morgan Arts Council has cancelled plans to use the Barn for their summer weekend workshops (see spring Newsletter), apparently due to lack of pre-paid interest. The CMA Board is still interested in receiving ideas for the use of the Barn. Please forward suggestions to Alice Minnamon (304-258-5352) or Pat Betts (202-333-1933).

After the Annual Meeting on Saturday, Sept. 5, stick around on **Sunday** for the Fifth Annual **Just-For-Fun Tennis Tournament** from 10 a.m. until 1 p.m. All players age 14 years and older are invited to participate. No pre-registration is necessary. Refreshments and tennis balls will be provided. *(continued next column....)*

Following the tennis tournament at 1 p.m., Sunday, everyone is invited to gather at the pool for the **CMA Community Picnic**. Bring lunch for your family (and guests) and a dessert to share with your neighbors. Cold drinks, condiments for hot dogs and hamburgers, and grills will be provided.

Real Estate Sought at Coolfont

The Newsletter editor recently received, and the Board approved for publication, the following letter:

Dear Mrs. Hay,

We are interested in finding a home in the Coolfont community. We have been frequent visitors to Coolfont and know a number of current homeowners. In the past few months we decided we would like to find a second home in the area for weekend and vacation use. We hope we can reach potential home sellers through the CMANewsletter.

We are interested in a modest three- or four-bedroom, two-bath home that is in reasonable shape and preferably, but not necessarily, furnished. We are looking for about 1,500 to 2,000 square feet of indoor living space. A deck and carport would be nice.

Anyone interested in talking to us about a home at Coolfont can write to us:

Mimi and Harold Jaffe
10702 Great Arbor Dr.
Potomac, MD 20854

New Residents on the Mountainside

CMA congratulates the following members who have completed -- or nearly so -- their new homes:

K-11 **John and Patricia Waters**, Ruxton, MD

D-1 **Leon and Greta Weinberger**, Potomac, MD

Q-2 **David Silver**, Bethesda, MD

K-5 **Gale and Kathryn Connor**, Coolfont

And we extend a warm welcome to the following new members who have recently bought homes and/or lots at Coolfont:

Nancy Coldeway, of Martinsburg, WV, and **James Thompson**, Arlington, VA, bought R-4.

James Dimm and **Maryellen Lannon** of Rockville, MD, bought F-1 from Cal Strawhand.

David and Julie Bulitt of College Park, MD, bought N-4 from David and Kate Welch.

Michael and Barbara Ankrum, Blacksburg, VA, bought K-2 from Martha Ashelman.

NOTICE: 1992 CMA Annual Meeting, September 5, Coolfont

Be sure to set aside September 5 as the CMA Annual Meeting at Coolfont. There are some very important items to be decided, including elections and approval of the FY-93 budget and the new tri-annual assessment rate. Complete information will be sent out shortly. Please plan to attend and participate.

News and Notes

"*An Outline of CMA-CDC Expansion Negotiations, 1981-1986*" will be available at the Annual Meeting, September 5. Those who will not be able to attend the Meeting can receive a copy in the next Newsletter mailing following the Annual Meeting by contacting Sarah Hay, 7930 Brink Rd., Gaithersburg, MD 20882; (301) 926-7007.

* * * * *

Up-to-date and corrected copies of the **CMA membership list** will also be available at the Annual Meeting. Please pick up your thick, bulky copy at that time.

* * * * *

CMA wishes to acknowledge the cheerful, informed, tireless, and generous service of two-term Board Member **Pat Betts** who is retiring from the Board at the September 5 Annual Meeting. Pat has been responsible for most of CMA's arrangements for meetings and for all of our wonderful social affairs on the Mountainside. The Board is grateful for her many contributions, and we look forward to a continuing relationship even though she thinks she's rid of us. Thanks, Pat!

Getting ready for winter: Even though the temperature is nearing 100 degrees as I write this, it is not too early to think about getting your Coolfont home ready for winter. Alice Minnamon has been in touch with Mike Hamilton of Appalachian Sweeps **Chimney Service**, near Hedgesville, who warns of the hazards of accumulated creosote in woodburning stoves and chimneys. A chimney cleaning cuts down on the sooty odors that occur during damp, rainy weather and lessens the caustic damage that continuously occurs due to acidic creosote. Mike is a member of the National Chimney Sweep Guild and has provided Coolfont members with this 10% discount coupon which can be clipped from the Newsletter. He can schedule an inspection of your chimney if you call him at (304) 754-9514. Prices for chimney cleaning range from $48 to $65, depending on chimney and wood stove style. Mike says wood stove owners need to be educated about the care of their chimneys, and that one has only to read stories in the *Morgan Messenger* each year to learn about the devastating effects of chimney fires due to sloppy and careless maintenance.
