November 1992

President's Message . . .

. . . Jim Bradfield

Attached to this Newsletter are minutes of the **Annual Meeting** held on 5 September. Members are requested to review the minutes and advise me (301 984-9657) or the Secretary, Ed Neill (703 250-4983), of any proposed changes. Changes will be incorported into the minutes for membership approval at the next Annual Meeting circa September 1993. Members who did **not** attend the 1992 meeting will note that all proposals outlined in the Annual Meeting announcement letter (dated August 1, 1992) were approved by substantial margins.

* * * * *

We are ready to begin the **installation of water meters** at those homes that are now without them. Members who have agreed to have CMA do the installation should recognize that the meter(s) will be installed at the edge of their lots where their water line is joined to the main water system line. They will be put in the ground and not on the surface since the water line itself is approximately two feet below the ground to avoid freezing in severe winter months. We are also testing all existing meters for accuracy and function.

* * * * *

Members will be pleased to know that **Bobcat Drive has been paved** from the "Loop" road to the North Reservoir. It is extremely important that members remind their families, their renters, and the contractors and tradesmen servicing their homes **not to exceed the posted speed limit.** In the first two days that the road was completed, cars -- some driven by CMA members -- were observed racing down Bobcat.

While the downhill slope and the smoothness of the road may tempt the driver to exceed the speed limit, members must remember that there are other members and renters who exercise by walking along our roads, sometimes with their pets. Our roads are designed not as "through" roads but only as access to our homes.

* * * * *

It has also been observed that some homeowners and renters believe that the trash container at the tennis courts is a central repository for trash pick-up. **CMA does not provide trash collection.** The Coolfont rental program provides trash pick-up when homes are rented. Homes used only for occasional conference rentals are serviced only when the home has been used for a conference. Private rentals and CMA members who do not rent are expected to make their own arrangements for disposal of trash.

* * * * *

With apologies for continuing to focus on errant behavior, we must remind members that **pets must be exercised on a leash** when on common land or on our road system. Pets must always be exercised with responsible human supervision, both on and off members' lots. Members must always monitor their pets so they don't wander off the property or get involved with other pets.

* * * * *

The development of the "**S**" **section** has started up again after being slowed down by rain.

[continued on next page]

The wetlands project is essentially complete. As this Newsletter goes to press, the State is scheduled to make a final inspection of the project. We are hopeful that deficiences noted during an earlier inspection have been fixed satisfactorily.

*****

Administrative Notes: The President wishes to acknowledge the cheerful and tireless effort provided the Association by Sarah Hay in her duties as Secretary to the Board and editor of the Newsletter. Sarah has agreed to continue to produce the Newsletter and should be contacted if any member wishes to submit material for publication. She has been responsible for preparing all Board monthly meeting minutes as well as special and annual general meeting minutes. Her editorial skills have also been evident in preparation of other documents and summaries prepared for general Association dissemination. This President is most appreciative of her efforts and is equally pleased that she has agreed to continue to work on the Newsletter.

[Editor's note: It was my privilege to serve CMA from 1990-92 on the Board, and I look forward to a continuing association with CMA though the Newsletter. The biggest bonus of my service was working with Jim Bradfield and other members of the Board and getting to know CMA members better. SHH]

The President asks if any member would like the position of **Parliamentarian** during the conduct of an official meeting. This President readily acknowledges that such a person would have helped during the last meeting. CMA has a copy of Roberts Rules of Order for reference purposes. Please call Jim Bradfield at (301) 984-9657.

The **next Board meeting** is Saturday, 7 November at Davis Public Library, 6400 Democracy Drive, Bethesda, MD, beginning at 9:30 a.m. Members are reminded that the Board sets aside time at the beginning of each monthly meeting for members to discuss CMA concerns they may have.

Rules for Snow Removal

1. If the homeowner regularly rents his/her home through Coolfont, the driveway will be cleared by Coolfont. If this does not happen, the owner should check with the front desk at the Lodge.

2. If the homeowner has special arrangements with Coolfont (*e.g.*, conference renting only), the driveway will be cleared ONLY IF the house is being used by Coolfont at the time of the snow storm.

3. Other homeowners who want to have their driveways cleared must contact Alice Minnamon on the Mountainside (304 258-5352) to make arrangements. This arrangement will require the homeowner to leave $20 on deposit with Alice as an advance revolving fund so that Alice can pay the snow plower immediately after he completes the job. Those members who have not yet reimbursed Alice for their driveway clearing from the last winter season will be required to pay off that outstanding debt before Alice will accept their $20 deposit for the coming season.

News and Notes

Rev. Mansfield (Kasey) Kaseman, long-time CMA member, recently addressed a luncheon celebrating 25 years of service by Community Ministries of Rockville (Maryland). As part of Community Ministries, Kasey began an emergency assistance hot line for crisis situations in 1982. The organization has a three-pronged approach to meet the needs of poor members of communities: direct service; political and economic advocacy; and community education.

CMA member and full-time resident **Henry Lynn** has opened a private psychological practice in Berkeley Springs. Henry and a group of professional colleagues offer services to children with special educational needs.
