Members To Vote on Common Land Trade

The July 2nd Board of Director's meeting produced a unanimously supported resolution regarding the proposed expansion agreement. The resolution will allow the membership to vote on whether or not they favor a key provision in the agreement allowing for a trade of ten acres of CMA common land for 29 acres of CDC land. The location of the common land in question is above and to the west of the E section. Some E homeowners have been against the expansion from the onset of debate. They have been joined by other members who see the sale or trade of CMA common land as an unwelcome precedent even though common lands have been traded on other occasions, or put to certain uses over the objections of members. The balloting is to be conducted soon. Thirty days from the time the ballots are mailed have been given for member response. If 2/3rds of the members support the land exchange, a meeting will then take place to vote on the agreement, a requirement of the convenants.

[letter to follow]

"It has been known for generations that organizations that do what they promise to do, and take care of their [members] in the process, always come out on top."

Philip B. Crosby - Quality Without Tears

Tree Cutting on Potential Common Land Became A Priority for CMA on April 9th.

Policy on Vista Views Key To Expansion- Policy Proposed

A special task force to control tree cutting on expansion lands completed work and turned the results over to the CMA Board for action in August. The policy calls for CMA approval for any trees to be cut on potential CMA common land. CMA controls tree cutting once land has been deeded to the association. It has been developer practice to cut trees on his land in line with construction and marketing considerations, this without CMA advice and consent. In the past there were no understandings which took the form of a developer-association pact on this important subject. Without a policy, community concern becomes heightened over indiscriminate tree cutting for construction and sales purposes. CDC has agreed with the content of the proposed policy which contains fines for policy abridgement. The policy would apply to the proposed expansion areas: T, U and V. Linda Clark chaired the task force and received recognition for her work at the meeting. The proposed policy is available to all members for review. *Write to 3717 S ST. NW, Washington, D.C. 20007.*

A water leak in your Coolfont home can be a costly affair. Have all plumbing fixtures checked on a regular basis, especially if you're traveling for long periods.

Leader Profile: Carl Bostrom, Chair, ByLaws & Rules

Carl is a true Renaissance man. He holds BS, MS and Ph.D. degrees in physics. Carl, a Yalie, has had more than 60 published papers on subjects such as the first observations of low energy solar protons in the earth's polar regions and the first long term study of the stability of the inner Van Allen belt. Carl headed the Applied Physics Laboratory of The John Hopkins University from 1980 to 1992. The lab conducts a broad spectrum of research for agencies of the U.S. Government, primarily the Navy.

Carl's list of honors and awards is impressive: Phi Beta Kappa, Franklin and Marshall College Alumni Citation, Air Force Exceptional Civilian Service Medal, Department of Defense Distinguished Public Service Medal, the list goes on.

A long time contributor to the well being of the association, Carl has served as a member of the Board for two terms and now chairs the bylaws and rules committee.

Carl and Sara like trees. Their homes in Montgomery County, Maryland and at Coolfont are surrounded by beautiful trees. And speaking of wood, Carl is a master craftsmen. His hobby is furniture making and his products are as excellent as was his professional career.

We're lucky to have members like Carl and Sara. Our thanks to them both for their support over the years.

DRY CONDITIONS AT COOLFONT

Care should be taken because their has been very little rain in the last month. Fire safety should be a priority. Any planting of trees or shrubbery will necessitate watering by hand.

CALLING ALL CANDIDATES !

by: Leila Keese, Chair, CMA Nominating Committee

Now is the time to volunteer to run for election to the CMA Board of Directors. Four positions are open as the terms of Harry Birnkrant, Glen Bruels, Connie Dupre and Ed Neill expire.

If you are interested in running for a two year term, contact any member of the nominating committee by Wednesday, July 20, 1994. Members of the nominating committee are:

Pat Betts	*(202) 333-1923*
Rosemary Bigelow	*(304) 258-5352*
Bob Dowling	*(301) 948-1456*
Connie Dupre	*(202) 244-4170*
Don Fox	*(301) 869-0023*
Leila Keese	*(301) 926-4318*
David Silver	*(301) 365-4237*

A list of candidates will be mailed to members one month before the annual meeting scheduled for September 3, 1994 at Coolfont Resort.

Because this is vacation season, if you are unable to reach your committee member of choice, please try another name on the list. CMA needs your support. Your contribution of time to the organization makes for policies that reflect the will of the community. Many of your neighbors have served CMA with distinction.

Thanks

A little Culture

23	Pianist David Finko 8:30 p.m.
25-to 8/19	Artist-in-Residence Else Munzinger - Daily watercolor classes
30	Ceoltori 8:30 p.m.

WATER TESTING - OOPS

PUBLIC NOTICE

ATTENTION ALL CMA WATER USERS

As a public water system, we are required to monitor our drinking water for various contaminants. CMA failed to submit the required sample for nitrate analysis during the 1993 calendar year. This is a violation of the U.S. Environmental Protection Agency and West Virginia Public Water System Regulations which require a minimum of one sample per year.

The nitrate test for 1994 was taken and results were rendered on a timely basis satisfying regulatory agencies. The Board of Directors approved the appointment of Elmer Broxson as Chief Operator of the CMA water system. All agencies have been notified of Elmer's appointment. Full particulars on water testing requirements are available to members.
