CMA Board Approves Start of Upgrade Work

Water-Sewer Upgrade Work To Be Completed in Two Phases

After two years of planning, contracts to build the upgraded water system have been reviewed and approved by our counsel and have been signed by the President. While the implementation plan reflects two phases, the individual contracts will be for the complete work by each contractor.

The purpose of the upgrade plan is to provide a safe and reliable water system for the ultimate size and capacity of a fully developed mountainside. The upgrade will:

1. Provide a single main supply reservoir in order to simplify the system and reduce state sampling costs.

2. Replace inadequate existing waterlines which don't deliver adequate supply and which are proven to require high maintenance.

3. Provide facilities for reliable water treatment and supply.

Changes in Final Plan:

The final design and projected cost was developed in July/August 1995. A number of changes were made to the preliminary design report including:

1. 7,850 ft. of water main instead of 13,285 ft.

2. Some future high location homes may require pressure enhancing devices.

3. Changes in elevation throughout the delivery system require that pressure regulatory valves be installed at various points in the delivery system to maintain static pressure below 100 psi (pounds per square inch).

4. Install a 6" PVC main from the new South Reservoir to the H Section. Install a 4" PVC main from the H Section to the K Section and connect to the existing 4" PVC main in front of K-3.

5. Construct a new 5,000 gallon cast-in-place, reinforced concrete reservoir between lots Q-4 and R-1 on the existing R reservoir access road.

6. Reconstruct north (P) well.

7. The construction of the reservoirs at elevation 1200' will allow equalization of water level throughout the system.

8. The new North reservoir structure will be constructed and will house a hydrodynamic system which will serve the highest 9 lots in the Q and R Sections.

The projected final cost with CMA as general contractor is:

Total:	$226,113
Contingency 15%	33,917
Engineering services	26,603
Inspection services	16,000
Grand Total	$302,000

Because of financial timing, the continuation of construction work will depend on a steady flow of cash. Depending on the weather and other factors, members may be asked to volunteer to send in their FY 1997 assessments a few months early to keep the work in progress without a hiatus.

Post-Turkey Trot on the Mountainside!
Y'all come!

Members are invited to participate in a 5K Coolfont Turkey Run, Walk, Stroll or Waddle on Saturday, November 25, at 9 a.m. Registration information can be obtained by calling Kate Mearns at (304) 258-4500, X-774 or registering in person at 8 a.m. on the 25th. Most of the walk will be over a paved course through Coolfont's property. Hot cider, a raffle and prizes await those who participate. Come on down!

New Utilities Committee Proposed

Board member Lee Weinberger has recommended, and the board is reviewing a plan to create a CMA Utilities Committee to oversee all water and sewer activities. It would be divided into two sub-committees - water upgrade and operations. The Upgrade team would oversee the work and quality control over the next 8-12 months of construction. The Operations subcommittee would handle all water meter readings, environmental control, billing, regulatory compliance, and emergencies. If you have thoughts on this, please send them to Lee Weinberger for consideration at the December board meeting.

DACC Team is Together

Linda Clark, DACC Chair, announced that she will be assisted by Dwain Place and Pat Schenk. She also announced that there will be a sub-committee on trees with volunteer members Charlie Balkan, Ken Dash, Mary Ann Michaels and John Waters.

December and January Board Meetings Set

The December meeting will be on December 2nd, starting at 9 a.m. at the home of Marvin Steinberg at Coolfont home, located on lot P-9.

The 17 January 1996 meeting will be at the Kensington Library, 4201 Knowles Ave. Kensington, MD, at 7 p.m..

Directions - North on Connecticut Ave. from I-495; 3rd traffic light after 495 intersection turn LEFT on Knowles. One block past first traffic light after turning left on Knowles is the library.

Cash Flow Still an Issue Due to Late Payments

At the November board meeting, the Treasurer reported that there are still 12 delinquent assessments and 8 water bills. The Board will tighten up on notification and imposition of penalties. With a very tight 1995 - 1996 budget, the board agreed that additional notifications are necessary and, when required, penalties should be assessed to encourage prompt payment.

Every year there are approximately 10% of assessments that are not paid on time. The Board spends an large amount of time every year dealing with the annual delay in receipt of operating funds. This year we have high capital expenses and we must carefully manage our capital flow.

The Covenants provide for a 30 day grace period for payment of the annual assessment. Then, there is another 30 day period for which the member is charged a $50 penalty for non-payment. After the full 60 days, non-payment interest is charged at the rate of three percentage points above the prevailing prime rate. Also, at the end of the 60 day period the President now will send a registered letter stating that if payment is not received within 30 days, the Association's counsel will be directed to place a lien on the property in question.

We all want to build our sense of community, and part of being a member is to be responsible for paying our fair share in a timely manner. A similar procedure for delinquent water bills will be implemented in accordance with West Virginia Public Service Commission guidelines.

Annual Meeting Draft Minutes

A copy of the draft September 2nd annual meeting minutes is included with this newsletter. Any corrections should be sent to Harold Radday, 5410 N. 11th Street, Arlington, VA 22205.

Water Meter Readings Delayed

The quarterly meter reading has been slightly delayed due to inclement weather. The new date is Monday, 20 November. Rain date will be 27 November.

Want the Board Minutes?

Any member who does not now receive copies of the board meeting minutes and wants to do so should contact Jim Bradfield, (301) 984-9657 with a request to be added to the list.

Wanted: Mountainside Secrets!

If you have any discoveries or special treats to tell your fellow CMA members, pass them on to Jim Bradfield (301) 984-9657 (also a fax machine) for our "Mountainside Secrets" section.

WELCOME NEW MEMBERS!

Ted & Jane Lochary P-5
Reisterstown, MD
(410) 526-4092

Robert & Beatriz Flick P-7
Alexandria, VA
